I'm Ákos Bozor and I'm creating websites, user interfaces, applications, mobile designs, logo designs and everything you need in the 21th century on the web and the mobile platform.

I love my job and I'm a very realist man who knows what he wants from life. I'm following the actual trends in design and UX every day.

I'm 33 years old and I have a son whom I love the most in the world. I'm playing guitar and my addiction is the Hungarian archery.
